Your choice for your satisfaction

Chiba Marine Korea Co.,Ltd.

Company profile:

Chiba Marine Korea Co.,Ltd. was established 22 years ago as a repairing company in Korea.

We have three (3) sections to deal with worldwide ship owners and ship management companies.

1.Repairing section

This repairing section have been engaged in technical service to ship owners for all kinds of repairing at float and we provide qualified repair teams to sail with vessels and carry out repairs during navigation to save owner's/manager's running repair cost.

A large number of Japanese & Korean ship owners, shipbuilding companies and foreign ship owners are utilizing the services of **Chiba Marine Korea Co., Ltd.** as a back-up to their own operation.

In Addition

- [Yanmar Diesel Engine](#) after service authorized company in Korea

Chiba Marine Korea focus on growing need to the ship owner for original spare parts and quality service for Yanmar manufactured products. We provide qualified and expert service engineer to new building shipyard for not only initial commissioning, load testing and sea trial service but also routine maintenances and repair services in Korea

- [Kawasaki Precision Machinery \(KPM\) service station](#) in Korea

We are providing trained technicians to overhaul equipments including maintenances and repair for KPM steering gear, crane, windlass and hyd. pump & motors.

.

2.Spare parts section

We have established cooperation agreements with various manufacturers and trading firms in order to offer a complete delivery service of the major marine spare parts and equipment to the world.

By using this section for your purchase, you will join a pool of owners and enjoy the reduction of prices due to the volume of purchases being handled.

3.Store section

We provide all kinds of stores and delivery service all ports in Japan & Korea.
